PREVENT YELLOW FEVER

by using

MURRAY'S FLUID MAGNESIA

The standard preventive against the perils of a tropical climate, counteracting the effects of excessive heat and normalizing the functions of the stomach, intestines, liver, and kidneys. Cures head-aches, acidity of the stomach, biliousness, gout and rheumatism in its less acute forms. Mixed with their milk, it prevents bowel-troubles with children. It is also a valuable relief for women *en route*. Pleasant and refreshing, it can be taken freely as a beverage, and is the only alkaline draught that forms no dangerous deposits in the stomach, intestines and bladder.

For this important contribution to medical science and practice, Her Britannic Majesty conferred the honor of knighthood upon its inventor, Sir James Murray, M. D. His signature, written with green ink, is found upon the label of every genuine bottle.

SEA SICKNESS

23 cases were treated on board a "Gilda" by Dr. Edmund Pinto with Tinture of Nectandra and of these, 22 cases were completely cured, and the remaining four became much better.

The illustrious naval surgeon, Dr. Henrique Muniz says that "during voyages on men of war I have had occasion to use Tinture of Nectandra Amara of Mr. Antero Leivas against sea sickness and always with excellent results."

Numerous testimonials of travellers justify the results obtained by these distinguished physicians, with the Tinture and pills of the Nectandra Amara against sea-sickness.

In order to facilitate the use of this medicine a prospectus accompanies each bottle written in the Portuguese, English and French languages.

N. B. The Nectandra Amara pills are formulated with the same doses of the Nectandra, in order that they may be sent by post all over the world with the least possible delay to supply the want of the Wine, Elixir and Tinture of Nectandra Amara, which are liquid and cannot, therefore, be transported by the same rapid and sure means.

For sea sickness, nausea in pregnancy, impoverishment of blood, weakness of the legs and novalescence after long and serious illness, the pills should be ground and dissolved in a small glass of Port wine in order that they may be taken as a liquid to insure a prompt action. It is also to facilitate for adults and children who cannot take dry pills, and in this case they can be dissolved in pure water if no wine is to be had.

Persons who have no connections here and who may desire to have these most useful pills can obtain them by applying direct to the proprietors who undertake to remit orders by registered post to any part of Brazil, or abroad for the small sum of \$2500 per box, 12\$500 for 6 and 20\$500 for 12 boxes.

WEST COAST ITEMS.

A telegram of the 7th inst. states that in the Chilean province of Aconcagua unemployed laborers have been attacking and robbing houses.

—The commercial treaty, says the Valparaíso correspondent of the *Financial News*, recently signed at Rio de Janeiro between the Chilean Minister and the Brazilian Government has provoked a simultaneous demonstration of cordiality by the two nations in their respective countries that can only be accounted for by what is indeed an open secret—a secret clause or treaty of alliance between the two countries. The exact details have not been divulged, but it is understood that either country has engaged itself to go to the assistance of the other in case of foreign invasion. Whether, in the case of a war between Chile and the Argentine, assistance from the Brazilians would be of much utility to the former is open to doubt, as the Brazilian army is not much to be feared, although their navy comprises some good ships, which would prove a valuable adjunct to the navy, already very strong relatively, and well equipped and manned by far better drilled and trained sailors than that of the Argentines. On the other hand, intervention by Chile would always be an efficient check on any encroachment by the Argentines on Brazilian territory.

RIVER PLATE ITEMS

—It is stated the population of the Argentine Republic was at the time of the last census, composed of 4,094,911 Argentines and 1,004,572 foreigners.

—A telegram received here last Saturday stated that in Uruguay an armistice of 15 days had been concluded between the revolutionists and government troops for the purpose of negotiating for peace.

—A telegram of the 18th inst. from Pelotas states that Aparicio Saravia and Lamas have been besieging Muniz, but that they raised the siege on the approach of Villar. It is said that many wounded have arrived at Bagé.

RIO DE JANEIRO, JULY 20th, 1897.

On last Saturday Hon. Thos. L. Thompson, having terminated his mission to this country, left on the steamer *Ionie* for Europe, whence, after visiting certain parts of the old world, he will proceed to the United States.

Of all the ministers who have been sent to Brazil by the government of the United States, there has never, we venture to assert, been one who has better comprehended the object of his mission than Mr. Thompson. And in making this assertion we think that, if other proofs were wanting, we should be fully justified by merely referring to the exhaustive report which, on the 23rd of last November, he forwarded to the Department of State, and which has been embodied in the publication on commercial relations issued by that department. This important document contains so much valuable information that, in our opinion, it should be printed separately and scattered broadcast among the manufacturers and other producers of the United States.

Under these circumstances, it must be acknowledged that Mr. Thompson thoroughly deserves the honorable tribute rendered to him by his countrymen residing in this city in the dinner which they offered him on last Tuesday and of which, in this issue of our paper, we publish a short account.

We are pleased to learn that the severance of Mr. Thompson's official connection with Brazil does not diminish his interest in the work of promoting the development of commercial relations between this country and the United States, and that after his return to the latter country he will continue to devote himself to this work. This is a praiseworthy undertaking in which, it is to be hoped, he will be thoroughly successful, thus accomplishing without solution of continuity the important object for which he has so strenuously labored.

The many friends whom Mr. Thompson and his family have made during their stay among us unite with us in expressing the deepest regret at their departure and in earnestly wishing them a safe and pleasant voyage.

LEGISLATIVE NOTES

JULY 12. Chamber of Deputies.— The debate on the army bill was begun.

JULY 13. Senate.— Several senators spoke in regard to the assault on Senator Porcuncula and much indignation was expressed.— Chamber of Deputies.— Deputy Barbosa Lima, in a speech on the army bill, said that the strength of the army in enlisted men (non-commissioned officers and privates) is now reduced to 14,320, of whom 3,612 have completed their term of service and are consequently entitled to be discharged. He offered an amendment providing for the execution of the conscript law and increasing from 1,200 to 2,000 the number of cadets at the military schools. He suggested that martial law should be declared in Bahia.

JULY 17, Senate.—Senator Ramiro Barcellos moved to inquire of the government what is the amount of outstanding exchequer bills issued during the present or other fiscal years. He pointed out the financial difficulties of the country, estimating at 200,000,000 the annual amount now required for the service of the national debt. Senator Severino Vieira said that the friends of the government are ready to unite with opposition in devising means for improving the financial situation of the country. **Chamber of Deputies.**—Deputy Nilo Pecunia made two interesting declarations. One is that it is impossible for the opposition to carry on election in Brazil. The other is that, if he is killed, the leader of the party opposed to him will pay for it with his life. Deputy Glycerio renewed the suggestion made at a previous sitting by Deputy Barbosa Lima in regard to declaring martial law in Bahia. Deputy Coelho Cintra moved that the committee on legislation be instructed to report on the constitutionality of the tax of 6% on articles imported from Brazilian States, voted by the State legislature of Pernambuco.

PROVINCIAL NOTES

—The steamer *Brazil* with the 22d and 38th battalions of infantry on board reached Bahia yesterday.

—The persons accused of having taken part in the lynching of the Britos at Araraquá are to be tried on the 26th inst.

—Engineer Alexandre Ilag, who had obtained a writ of habeas corpus from the supreme court was indicted in Pará on last Saturday.

—The *Gazeta do Povo*, at Campos, has suspended publication, alleging that it has no security for the printing-office or for the lives of its editors and employees.

—The executive committee of the partido republicano federal of S. Paulo has published a manifesto in answer to that of Congressman Glycerio. The committee severely censures the Jacobins.

—At the Porto Alegre military school there was a fight on the 12th inst. between Prudentista and Glycerista cadets. Two were severely wounded. It is stated that the majority of cadets are prudentistas.

—It is asserted that the governor of Ceará has decided to support the policy of President Prudente de Moraes. The governor of Pará is supposed to continue to maintain a conciliatory attitude towards both prudentistas and glyceristas.

—Dr. Miranda Azevedo is reported to have said in a speech which he made last Saturday in the S. Paulo chamber of deputies that he has reason to believe that Congressman Glycerio's protestations of being in harmony with Marshal Floriano Peixoto's policy are not sincere. This corresponds to what we have been informed from other sources. In fact we have heard it said that Glycerio's tenacious opposition the plan establishing a permanent dictatorship. For this, of course, he deserves credit, though it does not exempt him from blame for his present conduct. A man deserves unqualified praise only when he is persistent in well-doing.

RAILROAD NOTES

—Decree No. 2,547, of the 12th inst., annuls the contract signed on the 17th of July, 1891, for a railway between Paraty and Iguaçu.

—It is stated that the government does not intend to buy the railway of the Companhia Melhoramentos do Brazil unless it finds it necessary to do so in order to facilitate the lease of the country railways. The representatives of a French syndicate are said to be engaged in examining the road.

LOCAL NOTES

—On the 12th inst. there was a mutiny at the sergeants' school, from which 88 of the mutineers have been detached.

—In view of the departure of Gen. Girard for Bahia, Gen. Pego has been appointed commander of the military school in this city.

—We have the pleasure of informing our readers that the police delegate at Paqueta has been dismissed. This official had rendered himself very obnoxious.

—The prominent part taken by Vice-President Manoel Victorino in the demonstration in honor of Congressman Glycerio on last Tuesday has excited considerable discussion in the press.

—The *Noticia* was informed yesterday that the forumista students of the Polytechnic school would hold a meeting to day for the purpose of nominating Julio de Castilhos as their candidate for the presidency of the republic.

—Col. Torres Homem has been dismissed from the command of the military school at Porto Alegre and appointed director of the military colony of Iguaçu. His successor in the command of the school is Col. Joaquim Martins de Mello.

—It was reported last week that a man had been arrested at Friburgo palace and sent to one of the fortresses for attempting to assassinate the president of the republic. The papers have been discussing the report, but not much light has yet been thrown on the subject.

—Up to Saturday the sum of 19,000\$ had been collected on the three streets of Onivitor, Uruguaiana and Carioea and the largo da Carioea for the purchase of the war vessel that is to be offered to the Portuguese government in commemoration of the voyage of Vasco da Gama.

—It is to be hoped that the suggestions of Glycerio and Barbosa Lima in regard to declaring martial law in Bahia will be peremptorily rejected. So many abuses have been committed in this country under cover of martial law that it is evident that the provision permitting it is incompatible with free institutions, and it should consequently be expunged from the constitution.

—On the 12th inst. senator Porcuncula, while on his way from Petropolis, was suddenly assaulted by one Cicero Pecunia, who struck him on the head with a cudgel, knocking him down. The senator who was unconscious for 20 minutes, was taken to his house on rua Silveira Martins, the assailant being arrested. The latter, who is a naval pharmacist, is a brother of congressman Nilo Pecunia.

DEATH.

On the 17th inst., at Las Palmas, James Clark, eldest son of George Clark, Kilmarnock, Scotland, aged 31 years.

MR. THOMPSON'S DEPARTURE.

Mr. Thompson, the United States minister, and his family, who left Saturday on the steamer *Jonie*, were the recipients, on their departure, of many proofs of the esteem and friendship that is felt for them here.

One of the most conspicuous of these proofs was the dinner offered to Mr. Thompson on Tuesday at Hotel Brito by American gentlemen residing in this city.

On this occasion Mr. Thompson, in response to a toast, made a short but eloquent address, expressing his thanks for the distinction conferred upon him and alluding to his diplomatic work, to his efforts to promote the advancement of American interests and to the cordial relations that he has always maintained with the Brazilian government and with his colleagues of the foreign diplomatic corps in this country.

"I came to Brazil four years ago a tyro in diplomacy," he said, "and I am not more than a novice on leaving it; but it has been a source of great satisfaction to find myself, when dealing with the serious questions we have had to consider, generally in accord with my highly esteemed colleagues."

Mr. Thompson then paid a glowing tribute to Brazil, which he described as a great and wonderfully endowed country, and referred with warm and natural enthusiasm to his own home in the city of roses and to the great city through whose golden gate the traveler passes on his way to a land of sunshine and flowers.

To the friends who surrounded him and to others who were absent he bade an affectionate farewell, giving expression to his earnest hope of meeting them all again at no distant day.

On Friday, at 3:30 p.m., Mr. Thompson and his family went on board the *Jonie*, where they were left by a large number of friends. The steamer left port on the following day at 6 o'clock a.m.

ANTONIO CONSELHEIRO.

Although during the past week many vague and absurd reports have continued to circulate in regard to affairs in Bahia, we are now able to give a connected account of what took place up to a certain date.

It seems that after the fight at Cocoró the troops under Gen. Savaget continued to advance, constantly harassed, however, by bands of fanatics, who inflicted on them heavy loss.

On the 27th ult. they arrived in sight of Canabal, and on this day their loss was very heavy. Col. Sampaia being one of the officers killed.

On the following day Gen. Savaget had begun to bombard Canabal when he received instructions to march to the assistance of Gen. Arthur Oscar the commander-in-chief, whose troops, surrounded by hordes of fanatics who had captured part of their ammunition and other supplies, were in a critical position.

At 11 o'clock a.m. the junction was effected and at 6 p.m. part of the supplies were recovered. It is stated, however, that the whole of the military stores and 45,000 cartridges remained definitely in the hands of the fanatics.

The government troops afterwards, as we stated in our previous issue, occupied and fortified the hill of Pavella, whence they bombarded the town of Canabal.

The loss of the government troops in their engagements is variously estimated. In a statement published by the government in the *Diario Official* it is said to be between 650 and 700. According to another account 50 officers and 300 men were killed and 50 officers and 300 men wounded. A telegram to the *Folha da Tarde* says that there were reported to be 500 wounded at Pavella. Moreira Cesar's old battalion (the 7th) is said to be reduced to 60 officers and men; but there has been published no statement of its loss discriminating the killed, wounded and missing. Among the officers killed were Cols. Sampaia and Thomaz Flores.

In addition to the losses incurred in battle, disease is contributing on a considerable scale to thin the ranks of the government troops. At the hospital at Geremão there were reported to be, some days ago, 126 patients and at that of Monte Santo 250.

Under these circumstances the government deemed it advisable to send more troops to Bahia and accordingly issued orders for the departure of the 22nd and 24th battalions of infantry, which formed a part of the garrison of this city, and the 38th, which was stationed at Niehrero. The 24th left on Thursday on the steamer *Itaperana* and the 22nd and 38th on Friday on the steamer *Brazil*. The three battalions are said to number about 1,250 officers and men. Seven soldiers deserted from the 24th battalion as it was marching through the city. Several officers have failed to go with their commands and have been arrested.

The three battalions form a brigade under the command of Gen. Girard.

One of the peculiarities that have been noted by foreigners in regard to Brazilian troops is that whenever they are transferred from one point to another they are nearly always accompanied with a large number of women and children. This was prohibited on the present occasion, much to the disappointment of soldiers' wives, three of whom leaped into the bay in endeavoring to follow the 24th battalion and were with difficulty saved from drowning. We learn that the government has taken steps for providing for these families.

With the 22nd battalion there went 50 recruits, and the Jacobin journals say that the press-gang is actively at work.

It is reported that the 13th, 17th and 29th battalions of infantry, now in the state of Rio Grande do Sul, will also be sent to Bahia.

For garrison duty in this city it is stated that two battalions of the national guard will be called into active service.

One of the Bahia journals has recently published a list of the leaders who are tried to command Conselheiro's followers. The commander-in-chief, it is stated, is a retired officer of the Italian army.

It has been reported that the government intends causing Gen. Arthur Oscar to be superseded by Gen. Barbosa; but the report has been contradicted.

Gen. Arthur Oscar is said to have telegraphed to his wife that he may not storm Canabal to day as he had expected to do.

On Sunday the Pernambuco correspondent of the *Jornal da Tarde* telegraphed to that paper that the first telegram that Arthur Oscar's wife has received from her husband was dated the 13th and that the last letter she had received from him was dated June 24th. A week ago she had telegraphed to him, but had not up to Sunday received an answer. Knowing, however, how busy he is, she felt no anxiety.

It is not yet certain that Col. Medeiros has reached Canabal with supplies from Monte Santo. In regard to this we find the following telegram from Bahia in the yesterday's *Pais*:

—We are unable to give any information in regard to the alarming rumors which since yesterday have been circulating in regard to the column under Col. Medeiros. There is great anxiety to learn whether the provisions and ammunition in charge of that column have safely arrived at Pavella. It was reported today that they had arrived and that preparations are made at Monte Santo to send more.

A telegram from Quimulus in yesterday's *Noticia* states that Arthur Oscar had telegraphed for farinha, rapadura, coffee, tobacco and soap, all of which would be sent to-morrow.

CRICKET.

On Sunday, 11th inst., at the Paysandu ground, a match was played between teams of 12 a side, representing the London and Brazilian and London and River Plate Banks.

The weather was everything that could be desired, and the game proved of an interesting and eventually exciting description.

The London and Brazilian Bank winning the toss, took first innings which realised 52, Millions 19, Brooking 11 and Allen 8, being top scorers.

The most successful bowlers for the London and River Plate Bank were Conolly 4 for 18, and Pritchard 3 for 3.

After lunch, quite a jubilee procession was witnessed, the 12 representatives of the London and River Plate Bank contributing to runs between them, the innings amounting with the aid of extras to 13.

Brooking 6 for 3, and Mawson 5 for 7 were responsible for the downfall.

The London and Brazilian Bank in their 2nd innings made 45 runs—Millions being again chief contributor with 15, and Allen playing well for 9.

With an hour and a quarter left for play, the London and River Plate Bank tried hard to get the necessary 86 runs, but through over-eagerness no less than 5 of the side were run out, and the effort fell short of the amount requisite to avert defeat by 16 runs. Webb carried his bat through the innings for a very well played 42.

The victors are to be congratulated upon their success, due in a great measure to the all round excellence of their fielding. Scores:
